

Stew Crew Volunteering Update: October 2020

CLCF Open House: Pick

On a sunny Saturday, October 10th, the Stew Crew welcomed people to the CLCF Open House. In addition to touring the recently renovated office, guests were introduced to the newly installed pollinator garden and toured the beautiful prairie which was in full bloom.

WingSpan Seed Collection: Pick Prairie

Volunteers spent each Tuesday afternoon on the Pick Prairie collecting seeds for the state project Wingspan. The goal for this month was to search for and collect Culver's root, Coreopsis, Virginia Mountain Mint, Yellow Cone Flower, New England Asters and Blazing Stars. Bugs were also competing for the seeds.

Trail and Tree Maintenance: Thoma Preserve

Trail maintenance on one of our newest properties has included cutting and treating buckthorn and removing old metal stakes. The leaves were just starting to blanket the trails at the beginning of the month. We invite you to take a hike in the beautiful Thoma Preserve and marvel at the tall pines. Can't you almost smell them?
